

# X5-T

# INKCUPS

The X5-T UV printer is a high-performance flatbed that can print a full 43 x 24 inches (1,100 x 610 mm) area in approximately two minutes (bi-directional). Utilizing the latest in print head technology, the high-throughput X5 prints CMYK plus two highly opaque UV LED-curable white inks, with an optional varnish for additional visual impact. It also features an industry-first 20-inch drop vacuum table.

The X5-T's rugged design is ideal for use in heavy-duty industrial printing and with promotional products. Leveraging a large vacuum table and up to four Ricoh Gen 5-print heads, the X5-T is able to print extremely tall flat and hard goods, up to 20 inches in height.

Ideal for full-color on-demand printing, the X5-T enables users to lower production costs, provide faster response to customers, and handle short-run quantities with customization.

## FEATURES

### FLAT OR SLIGHTLY CURVED ITEMS

**BED SIZE: 43" X 24"**

**INK CONFIGURATION:  
CMYKWW OR CMYKWWVV**

**MAXIMUM PART HEIGHT: 20"**

**SINGLE- OR BI-DIRECTIONAL  
PRINTING**

### COMMON APPLICATIONS:

- Hard coolers
- Soft coolers
- Sports balls
- Boxes
- Promotional items

### POWER REQUIREMENTS & DIMENSIONS

Voltage: 220 VAC, Single Phase, 15 Amp

Uncrated dimensions (L x W x H): 100" x 52" x 55"

Crated dimensions (L x W x H): 110" x 65" x 69"

Approximate weight net/crated: 2094/2194 lbs.
